

NAME :- GOVIND THAKUR

Age:- 80 Yrs/ Sex:-Male

REFFERD BY :- DR AMIR HUSSAIN (MBBS MD)

PT ID:- 58102

Indication:- USG of Whole Abdomen

Date:-5-Jul-25

LIVER: Normal in size of measures 146 mm in midclavicular line. Normal echogenicity and fine homogeneous in echo texture. Intra hepatic biliary radicals are not dilated. No focal or generalized parenchymal lesion is seen. No sub phrenic collection is seen.

Gall bladder: lumen echo free. Wall thickness is normal. No evidence of any calculi or mass seen.

CBD: Normal in caliber of diameter is 2.4 mm. Lumen echo free. No evidence of dilated, calculi or sludge seen.

Portal Vein: Normal in caliber of diameter is 9 mm. No evidence of dilated or thrombosis seen.

Pancreas: Normal in size, shape and normal in echo texture.

Spleen: Mild small in size (57 mm) and normal in echo texture. Splenic vein Normal in diameter. No Any focal lesion seen.

Kidney: Right kidney is normal in size (94X42 mm) & shape and normal in position, sinus as well as cortical echoes are normal No evidence of calculus or hydronephrosis noted at the time of examination.

Left kidney is normal in size (94X45 mm) & shape and normal in position, sinus as well as cortical echoes are normal. No evidence of calculus or hydronephrosis noted at the time of examination.

Urinary bladder: No evidence of mass or diverticulum is seen. Wall is of normal thickness.

Ureters: Both ureters are normal.

Prostate:- Weight is 48 grams, Capsule is intact. Enlarged in size. Median lobe not compressed into bladder base.

Others: Bowel walls are mild thickened with hyperechoic in echotexture. No ascites is seen. No retroperitoneal nodes seen. Ascending, descending, transverse and sigmoid colon are normal seen.

Impression: -

- ❖ Spleen mild small in size. S/O:- Atrophic changes.
- ❖ Prostatic gland enlarged in size. S/O:- Prostatomegaly (Gr-I).

❖ Bowel walls are mild thickened with hyperechoic in echotexture. S/O:-
Enteritis.

❖ Other structures are within normal limit.

Correlate clinically.
